Hello Good day!

This is Said Mohammed Hamid, a Syrian living in Ghana.

I have got your name and details from a business publication -noting that as a reputable financial broker & Investor. I have resorted to contacting you solely to seek your support to invest my family fund (US\$125,000,000.00) under your good supervision & monitor. And once we secured the fund under your supervision. In fact, for standing as an inherent beneficiary, you'll be compensated with 35% of the net sum.

Now if you have a viable project that can generate a good ROI (Return on Investment) within the period of funding, confirm your ability to collaborate with my family to invest the fund under a viable (profitable) investment with good ROI.

If yes, then provide us with your business details, documents or investment plan. Upon receipt of your positive response we'll determine the prospect, viability & growth potential of your investment line; thereafter arrange a phone meeting to discuss your investment terms & conditions.

Best regards,

Best regards,  
Mohammed Hamid
